3:30pm - 5:00pm	**Evaluation and Prize Distribution**	Judges begin final evaluations and announce the winners.

Rules & Regulations

1. **Task Instructions:**

    - Teams will receive a detailed problem statement at the start of the competition.
    - Solutions must address all specified requirements, such as functionality, aesthetics, and responsiveness.
    - Any Technology/Programming stack can be used. Use of AI models is also allowed.
    - Each solution will be evaluated against test cases.
    - The decision of the judges will be final.

2. **Break Management:**

    - A single refreshment break is provided after the creation phase.

3. **Submission Guidelines:**

    - Submissions must include all necessary files (e.g., source code, assets).
    - On-spot evaluations of the submissions.
    - Deliverables may be submitted through the designated platform or via USB.

4. **Evaluation Criteria:**

    - Functionality (40%): Does the solution meet all technical requirements?
    - Design (30%): Is the design user-friendly, visually appealing, and innovative?
    - Creativity (20%): Does the solution show originality?
    - Presentation (10%): How well is the solution explained to the judges?

Additional Notes

- Task Supervision: Supervisors will provide guidance during the task but will not assist in problem-solving.
- Break Management: Participants are encouraged to relax and recharge.
- Technical Support: A dedicated team will assist with any hardware or software issues.
